BENTLY NEVADA MODEL-SPECIFIC PRODUCT

200151-XX-XX-XX MOD:323357-15-03-00

200151-XX-XX-XX MOD:323357-15-03-00 is a Bently Nevada Modified Accelerometer Cable. This independent manual keeps the exact model visible and summarizes product-specific information recorded for procurement and configuration review.

PRODUCT FAMILY	PRODUCT TYPE
200151 accelerometer cables	**Modified Accelerometer Cable**

Exact model configuration

CONFIGURATION FIELD	DECODED VALUE
Displayed model	**200151-XX-XX-XX MOD:323357-15-03-00**
Manufacturer	**Bently Nevada**
Product family	**200151 accelerometer cables**
Product type	**Modified Accelerometer Cable**
Base family	**200151 accelerometer interconnection cable**
Modification identifier	**323357-15-03-00; exact configuration to be confirmed**
XX / XX / XX options	**Unspecified; do not infer length, armor or connector arrangement**

Application fit

- Review the cable for the installed accelerometer and receiving interface.
- Use standard-family documentation for context, not as proof of MOD construction.
- Match both terminations and the actual route to the modification drawing.

PRODUCT-SPECIFIC REFERENCE	INSTALLATION NOTE
200151 accelerometer interconnection cable 323357-15-03-00; exact configuration to be confirmed Unspecified; do not infer length, armor or connector arrangement	The supplied family datasheet does not decode this modification. Standard cable ratings are not asserted as modified-unit ratings. Confirm all unverified values against the original configuration drawing.

MODEL-SPECIFIC ENGINEERING REFERENCE

Before ordering 200151-XX-XX-XX MOD:323357-15-03-00

Use this page as a controlled procurement checklist. It does not replace the manufacturer datasheet, installation instructions or approval certificate.

Ordering limits and selected values

CONFIGURATION FIELD	DECODED VALUE
Manufacturer	**Bently Nevada**
Product family	**200151 accelerometer cables**
Product type	**Modified Accelerometer Cable**
Base family	**200151 accelerometer interconnection cable**
Modification identifier	**323357-15-03-00; exact configuration to be confirmed**
XX / XX / XX options	**Unspecified; do not infer length, armor or connector arrangement**

Procurement checklist

- Confirm the complete ordering code 200151-XX-XX-XX MOD:323357-15-03-00 and readable nameplate before shipment.
- Preserve the XX placeholders and complete MOD identifier on the request.
- Obtain both-end photographs and the original modification drawing.
- Confirm length, pin assignment, armor and temperature rating for this assembly.
- Validate continuity and channel response using the approved site procedure.

DIRECT SALES INQUIRY

Send the full model **200151-XX-XX-XX MOD:323357-15-03-00**, quantity, delivery country, and a clear nameplate or installation photo.

Source and document status

Technical basis	Bently Nevada 164986 covers standard 200151 cables. It does not identify MOD 323357-15-03-00; modified assembly details require the original drawing.
Publisher	Moore Automation - independent industrial automation supplier.
Document status	Independent product manual; not a manufacturer-issued datasheet, conformity certificate or calibration certificate.
Important	Verify availability, revision status, compatibility, nameplate data and regulatory requirements before ordering.
